GYRATION® ULTRA PROFESSIONAL OPTICAL MOUSE

ULTIMATE PC & PRESENTATION REMOTE CONTROL

GYROPOINT POWER™ DELIVERS EFFORTLESS, IN-AIR CURSOR CONTROL

Other presentation controllers offer unacceptable remote cursor control . . . or none at all. Gyraton allows you to control your presentation and apply advanced techniques using subtle hand movements without distracting your audience. The magic behind the motion is provided by our patented GyroPoint® technology.

100-ft. RANGE GIVES MOBILITY AND FREEDOM TO ENGAGE YOUR AUDIENCE

Gyraton's high-power radio with no line-of-sight limitations allows you to confidently roam around a room and interact with your audience. Eight channels and 65,000 unique addresses provide transmission security. One Gyraton receiver is all you need to sync up to eight Gyraton mice, remote controls and keyboards.

THE ONLY IN-AIR MOUSE IS ALSO THE BEST DESKTOP MOUSE

Gyraton's high-power radio transmits data up to 160% faster than other cordless mice, resulting in smoother tracking and faster response. Its optical sensor delivers maintenance-free precision and Gyraton's innovative rechargeable battery system means your mouse will always be ready for action.
